## We Do Shirts

Custom shirts make your staff appear professional and well organized and are a very cost-effective means of advertising.

## PRO|GRAPHICS

We designed this trifold and printed it on our amazing Canon Imagerunner Pro Advanced. Imagine what we could do for you!

## We'll Sharpen Your Competitive Edge!

Our parent company has long been known as Houston's premier copier sales, service and supply institution and our graphics division knows how to get the most out of the machines we offer to the public. We can scan your existing documents, in color or B&W, up to 36" wide, producing PDF, tiff, jpeg or any other filetype you require. The knowledgeable staff at ProGraphics can help you grow your business or organization by designing and printing a variety of advertising materials specific to your message. The necessity of paperwork can be eased by our ability to design and produce all kinds of forms, signs, spec sheets and even catalogs and price lists.
